***Reasons For Allowance***

Claims 2 – 16 and 31 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest the method or computer readable medium as recited in independent claims 3 and 31 wherein the steps include selecting a class using the accuracy principle to select the class, to which the record is assigned, from the classes corresponding to a reference value or reference values, in which case that is selected, from of those corresponding to the reference value or reference values, which has the definition of which the greatest number of classification structure conditions are met.

The dependent claims, being definite, further limiting, and fully enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
